Historic landfill

Site details:

Site name	Highfields School Playing Fields
Site address	Eastbourne, Sussex
Site operator	null
Licence no.	null

Types of waste buried:

A 'Yes' is shown in the right hand box where there is evidence that the type of waste may have been buried. If there is no evidence or no data currently available, then the box is left blank.

Inert: Waste which remains largely unaltered once buried such as glass, concrete, bricks, tiles, soil and stones.	Yes
Commercial: Waste from premises used wholly or mainly for trade, business, sport, recreation or entertainment. Excludes household and industrial waste.	Yes
Household: Waste from dwellings of various types including houses, caravans, houseboats, campsites, prisons and wastes from schools, colleges and universities.	Yes

Waste control measures:

A 'Yes' is show in the right hand box where there is evidence that control measures may have been taken at some point during the site?s lifetime. If there is no evidence or no data currently available, then the box is left blank.

Gas control: Landfill gas, which includes methane and carbon dioxide, is produced during the decomposition of waste organic material. Methane is flammable and an asphyxiant in confined spaces. It is also a greenhouse gas. Control measures may include venting the gas away or burning it off.	Yes
