

Design and Access Statement – Cuckmere House School, Seaford

- Use

The proposal is to retain a double mobile classroom unit on site at Cuckmere House School, Seaford. The current planning consent expires on 3 August 2010 under planning ref LW/2406/CC Schedule 1.

The double mobile was installed to support the school with their successful application for specialist school status received in 2005. The unit has proved successful in giving the school adequate teaching and learning space and they wish to continue to maintain the unit on site.

Currently there are no further funding opportunities to support permanent build and we are therefore seeking to renew planning consent for a period of five years (August 2015).

- Amount

3.5m in height, 164m² total floor area

- Design and Layout

1 classroom, administration offices and group work area

- Landscaping

Existing foliage partially screens the unit from the public eye

- Appearance

The unit is in very good condition painted in "East Sussex Green"

- Crime prevention

There are no major crime issues on site.

- Access

A ramp is provided to give access to the unit, two further units on site will be provided with ramps in the autumn.
