Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: As a West Seaford resident I object strongly to planning application LW/799/CM(EIA). My objections are based on the environmental and social impact the plant would have on the following: *Air pollution, noise and light pollution at night. *Very large increase in heavy goods vehicles in an already congested area. *Very negative effect on the West end of Seaford Bay and the Tide Mills area. It will destroy any possibility of Newhaven being regenerated into a pleasant place to live. It will also have a very negative impact on Seaford which is trying to promote itself as an attractive area for tourism.
