Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: As a resident in Station Road Bishopstone, we face the proposed development head on (within 1.5 kms) and are subjected to the prevailing wind from the southwest which will pick up any fallout from the concrete factory and any other heavy industrial units, these will be dumped along Seaford bay over the wildlife sanctuary, the caravan site and most of Bishopstone and Seaford. this will not only damage the environment but also the tourist industry, local traders, etc. I cannot see this helping the job situation locally. This development must surely be rejected .
