Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: Apart from the negative effect on the birds and other wildlife that this development will have, I am very concerned about the effect on the infrastructure of this area. Newhaven town centre has become a disgrace. Nobody wants to go there now. It seems to take at least a couple of weeks to get an appointment with a doctor if you are lucky!. The schools seem to have trouble coping with the behaviour of children they have already. So an influx of people to this area if that is expected, will affect both doctors and schools. As for the road network, where shall I begin?. It is a nightmare. More traffic , especially commercial will cause havoc. I understand that there is also a medical incinerator possibly planned for this area too. Poor Newhaven. It seems to have become a dumping ground. No doubt , as always,some people will benefit if this goes ahead .
