Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding. * Please note that the applicant has withdrawn Stage 4 of the proposal. The formal letter from the applicant withdrawing Stage 4 is preceded with the date 02.02.2018 and the associated documents showing the revisions to the application are preceded with the date 23.02.2018.

Anyone wishing to comment on these revisions can do so up to the date of the relevant Planning Committee.

Comments: I would like to add to my original objections that as FM Conway have recently had planning permission for their new plant that the additional 36,500 HGV movements forecast are not present in Brett's traffic assessment, the combination of both will have a noticable effect on the local traffic and air quality.

Yours sincerely, Robin Dickinson
