Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: I have now heard that the Brett Aggregates application goes against LDC Local Plan. As well as breaching the LDC Local Plan, the application also breaches ESCC's own Waste and Minerals Plan and the Newhaven Harbour Master Plan. The ESCC Waste and Minerals Plan states that Newhaven North Quay is a safeguarded berth for aggregates use and the Newhaven Harbour Master Plan promotes Clean Green opportunities and not a Concrete Works which is in no way clean, green or harbour related. The Brett Aggregates application should be rejected/refused and should not be given any further planning consideration. Please give serious consideration and safeguard our natural beauty spot.
