Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: I really believe that there is much more long term benefit to jobs, the economy, council revenues and the quality of life for residents and future generations , if planning in Newhaven prioritises projects that enhance the quality of life and attractiveness of the area to live. Another industrial site will undermine the towns future potential terminally for precious little gain and at substantial risk of the owners of the project making “strategic” changes in future.
