Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: This will cause local pollution and the destruction of Tide Mills which is a historical treasure. I do not agree with the planning application and the effect it will have on the unspoilt surroundings as well as the health of the local community.
