### Comments

**Reference:** LW/799/CM(EIA)

**Description:** The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

**Comments:** Instead of gentrifying Newhaven and making area appealing to young families, professional, and anyone who can bring live back in to Newhaven and surrounding area , one may as well move everyone from the town, build a huge flyover from Seaford to Peacehaven and make “NEWHAVEN” South of England GIANT Industrial enterprise zone. Why spend money for the regeneration of the town?? Surely , this plant could be located somewhere in the middle of the Sussex along A23 and rail line for convenience , find a location that doesn't have such wide reaching negative implications for Newhaven town itself.
