Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: I vehemently oppose this proposed development . This unnecessary eyesore will undoubtedly damage the environment and economy of this area. Producing more heavy traffic, more dangerous pot holes, more air pollution, more noise pollution, more light pollution due to 24 hour operations and again causing the halt of any possible regeneration of the Newhaven area. Brett could far more easily increase production at their existing plants rather than dropping this environmental bombshell on this beautiful place. The harbour expansion plans will see the loss and destruction of another other sandy beach in the corner of Tide Mills by the East Arm. Please maintain public access to all of this vital local nature reserve and protect it and its historic sites from irreversible damage.
