Comments

Reference: LW/799/CM(EIA)

Description: The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

Comments: I want the application to be declined because the area will become polluted and it will not be good for the health of anyone, especially our children and elderly. The noise will be an issue, and it will also cause too much extra traffic on roads that are already struggling. One big issue I have is the use of the railway system, this will cause an awful lot of extra noise and business right by our house, and as it will be a 24 hour operation I do not think this is fair for all the residents who live here. The area should be kept so residents can access the beach and land where we live, not sold on the ruin an already decrepit town even more. More needs to be done to rejuvenate in a way to bring in visitors and money from tourism, not environmentally dangerous businesses.
