### Comments

**Reference:** LW/799/CM(EIA)

**Description:** The construction and use of plant, namely aggregate processing plant, aggregate bagging plant, concrete batching plant, concrete block-making plant and buildings, ancillary offices and stores for processing and utilising aggregates landed at Newhaven Port and distribution of the products by road and rail together with access to the public highway and the extension of an existing rail siding.

**Comments:** I object this development because it will have an adverse effect on the whole of Seaford Bay. It will not only be an eyesore, but it will also cause a great deal of pollution, noise and heavy traffic on the roads. Important habitats for wildlife will be damaged or destroyed, including the natural habitat of Tide Mills and the shoreline, as well as sites of historical importance. This will ultimately mean less tourism in the area, which will mean fewer jobs in the long term and will destroy any chance of Newhaven ever regenerating as a pleasant place to live.

**Comment date:** 06/12/2017
