Comments

Reference: LW/799/CM(EIA)

Description: The installation and operation of an asphalt plant, concrete batching plant and gully waste plant, together with ancillary development and access.

Comments: I object to this development because it will have an adverse effect on the whole of Seaford Bay. It will not only be an eyesore, but it will also cause a great deal of pollution, noise and heavy traffic on the roads. Important habitats for wildlife will be damaged or destroyed, including the natural habitat of Tide Mills and the shoreline, as well as sites of historical importance. This will ultimately mean less tourism in the area, which will mean fewer jobs in the long term and will destroy any chance of Newhaven ever regenerating as a pleasant place to live.
