

B1297000-PH2/3000.01a/0008 C4

- NOTES**
- All dimensions in metres unless otherwise stated.
 - For complete fencing key, refer to fencing drawings.
- KEY**
- High Forest - Dry (Planting at 2m centres, random mix in groups of 3-5 of each species) (LE2.1 and LE2.4.1)
 - High Forest - Dry (Planting at 2.5m centres, random mix in groups of 3-5 of each species) (LE2.1 and LE2.4.1)
 - High Forest - Wet (Planting at 2m centres, random mix in groups of 3-5 of each species) (LE2.1 and LE2.4.1)
 - High Forest - Wet (Planting at 2.5m centres, random mix in groups of 3-5 of each species) (LE2.1 and LE2.4.1)
 - Dry Woodland Edge (8m wide, planting at approximately 1.2 - 1.5m centres in three staggered rows, random mix of 3-5 species (LE2.1 and LE2.4.1) Care must be taken not to plant in ditches or straight lines. Refer to plant spacing detail on drawing B1297000/3000.01a/0001)
 - Wet Woodland Edge (8m wide, planting at approximately 1.2 - 1.5m centres in three staggered rows, random mix of 3-5 species (LE2.1 and LE2.4.1) Care must be taken not to plant in ditches or straight lines. Refer to plant spacing detail on drawing B1297000/3000.01a/0001)
 - Scrub random mix in groups of 3 - 5 of each species (LE2.2)
 - Wetland Scrub random mix in groups of 3 - 5 of each species (LE2.2)
 - Existing Woodland to be managed (LE2.1)
 - Existing Woodland Edge to be managed (LE2.2)
 - Scattered Trees in Wet Grassland, Marsh and Fen (LE2.1.1) Refer to plant spacing detail on drawing B1297000/3000.01a/0001
 - Scattered Scrub in Neutral Grassland (LE2.1.3) Refer to plant spacing detail on drawing B1297000/3000.01a/0001
 - Climber plants on fences and structures - 4m linear spacing unless otherwise noted.
 - Woodland/woodland edge in-fill planting
 - Amenity Tree and Shrub Planting (LE3.1)
 - Extra heavy standard, semi-mature tree or multi-stem tree
 - Site of Special Scientific Interest (SSSI)
 - Site of Nature Conservation Importance (SNCI)
 - Native Species Hedgerows (LE4.3) Two staggered rows, planted at 0.5m centres, 0.5m between rows
 - Native Hedgerows with Trees (LE4.4) Two staggered rows, planted at an average of 10m - 15m centres. Each tree shall be marked/identified with a pole as described in Appendix 30.1 Planting, Sub-section vii in Revision 9 (or later) of the Series 3000 Appendices.

Earthworks to be completed.

Existing trees, hedges & scrub to be retained.

CPO - CPO boundary

MANAGEMENT OF DECAY POND WOOD WITH COPPICE OR POLLARD HALF WILLOWS around pond areas in Year 1 and the remainder in Year 5 prior to hand-over to ESCC management. A few of these trees could be left untouched in each operation to retain a variety of tree forms. Review and remove some of less desirable/invasive species (such as goat willow) in Year 1 and in Year 5 prior to hand-over to ESCC. Cyclical coppicing of hazels; a quarter in Year 1, a quarter in Year 5 and the remaining quarters in Years 10 and 15 under ESCC management as detailed in the OEMP. In Year 20 and 40 the coppicing cycle would begin again. Inspect areas of bracken to determine the benefit or otherwise of bracken control. If necessary carry out bracken control by agreed method in Years 18.5. Annually monitor and remove/control any alien invasive species. Monitor/control seedlings from mature sycamores in the adjacent Decay Pond Show, in Years 18.5. Annually monitor English elm and Wych elm for Dutch Elm Disease. Investigate the need for further dredging in the existing pond.

MANAGEMENT OF SCRUB WOODLAND DR2: Selective thinning/removal of some of the more vigorous species of scrub vegetation at 5 year intervals starting in Year 1 to retain a balance of scrub and open patches with herbaceous flora. Biennial cutting of herbaceous layer in open patches, removing the clippings to maintain/encourage the growth and diversity of fernland and chickweed species. (During Years 1, 3 and 5 as part of this contract, and by ESCC in Year 7). Annual monitoring and removal/control of alien invasive species.
