Description of the Proposal

Please note in regard to:

- Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The proposal is to remodel and upgrade the internal supported living spaces, replace damaged roof tiles and extend the building to rear to provide 2 additional accessible ensuite bedrooms. The proposal also includes solar panels to the south facing aspects of the roof, sun pipes to provide natural light to circulation spaces and air source heat pumps to improve energy efficiency. Jasmine Lodge, Station Road, Northiam, Rye, TN31 6DW

Details of the pre-application advice received

The site wholly lies within the High Weald Area of Outstanding Natural Beauty. The applicant is advised to seek advice on the design of the proposal from the High Weald AONB Unit and refer to the High Weald Management Plan. The Arboricultural Impact Assessment (The Mayhew Consultancy Ltd, October 2022) states that at least one tree would require removal as a result of the proposal, and possibly a second dependent on where the construction access is located. An additional tree is marked for removal as it is dead. The Report also states that aside from trees, the primary vegetation within the site is improved grassland which is regularly maintained. The grassland habitats, trees and building on site offer potential for protected species, including, but not limited to bats, breeding birds, great crested newts (GCN) and reptiles. Of particular note are nearby records of GCN and reptiles (within 100m of the site. The site also lies within the red zone of the impact risk maps for the GCN District Licence, indicating highly suitable habitat and the most important areas for GCN. The applicant may wish to consider entering into the District Licence scheme to address any potential impacts on GCN; the scheme is administered by NatureSpace on behalf of the County Council. Therefore, any planning application should be informed by an Ecological Impact Assessment (EclA). In line with BS42020:2013 Biodiversity – code of practice for planning and development, ecological impacts should be assessed, and recommendations for appropriate mitigation, compensation and enhancement made in accordance with CIEEM guidance. The assessment should consider the proposed development and the surrounding area, and should include a data search from the Sussex Biodiversity Record Centre. In line with the NERC Act, NPPF, local planning policy and the Environment Act 2021, it should consider the existing nature conservation resource of the site, identify impacts and assess the need for avoidance, compensation and new benefits for biodiversity, including the potential to create and/or strengthen connectivity between existing habitats and to provide measurable biodiversity net gain (BNG). Surveys should be carried out in accordance with national best practice guidance and Natural England's standing advice.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☒ Yes
- ☐ No

If yes, please provide details of their name, role, and how they are related:
