Subject: RE: Uplands Community College - WD/3210/CC - MUGA location

Afternoon Amy,

The MUGA is located in this position as this is an area not used for sport. If the MUGA was located elsewhere it would affect other sports on the playing field resulting in an objection from Sport England. This location thereby maximises the space for sport within the College site. It should also be noted that access to the playing fields needs to be retained for Emergency vehicles. Also by erecting the MUGA in this location it will restrict any potential building expansion by the College in the direction of the existing residential properties.

Regards

Dear Haidee,

A number of objection letters question the siting of the proposed MUGA within the overall College grounds – why it is located where it is proposed and not further to the south away from residential properties? Please could you provide a response/ comment on this?

Many Thanks
