Acoustic fencing & barriers that are built to last

Buffalo Acoustic Fencing 'Plus' Barrier

An absorptive layer, covered with a protected membrane is incorporated on one side of the boards to further reduce noise by an average of 4dB. Buffalo Acoustic Fencing "Plus" is ideal in applications where the screen is to be used to form a compound around a noise source or a noise source is surrounded with reflective surfaces such as high fencing and buildings.

This timber construction features the unique tuning fork design posts or I beams, plus special fixings clamp the acoustic boards between the posts. It all comes complete with the timber capping and counter rail. The benefits of all this is a reduction of up to 32dB.

Buffalo Acoustic Fencing "Plus" barrier certified laboratory results:

- Rating according to BS EN 1793 - 1:1998
- Category = A3
- Laboratory sound reduction 32 dB
- Superficial Mass 33kg/m²
