### SITE ADDRESS AND CLIENT NAME

Client: East Sussex County Council  
Site: Northiam Primary School  
Address: Main Road, Northiam, Rye

### GENERAL STATEMENT

Hamson Partnership is committed to helping the environment by reducing waste through sound management practices. Hamson Partnership realizes that the success on any such management practices depends on the full support of all staff, contractors and sub-contractors and as such we positively encourage all contractors, sub contractors and staff to read our waste minimization policies and assist in their development.

This document is purely a guide to the disposal of any materials on site and as such will be developed during the contract period to provide a comprehensive framework for the safe and environmentally friendly method of waste removal.

### Separated Waste Categories

1. Timber
2. Metal/if possible sub divided into their types, copper, lead, zinc etc
3. Cardboard/Paper
