Dear Sir,

Town and Country Planning Act 1990 Relating to land known as A259 Belle Hill, Bexhill on Sea to B2092 Queensway, St. Leonards on Sea, East Sussex RR/247/CC(EIA) – Condition 9: Temporary Construction Works.

Following our recent discussions regarding the proposed site investigation works to be carried out at Glovers Lane and St. James Crescent please find enclosed the following documents:

- Proposed Borehole Location Plan;
- Existing Photographs on Locations and Associated Comments; and
- Comaccio MC300 Drilling Rig.

The reason we need to carry out these site investigation works is for the works associated with stabilising the railway cutting.

Each borehole shall take 1no. day so the whole operation will last 5no. days. On each day the rig will use Glovers Lane or St. James Crescent once in the morning on arrival and once in the afternoon once the work is complete. These investigations will be carried out during normal construction hours.

The works are due to commence on Wednesday 14th May and last for 5no. days, but as a contingency we would like to apply up to Friday 23rd May should we require it.

Our Public Liaison Officer shall discuss these proposals with the residents directly affected and a letter drop will be carried out to all the residents in the vicinity of the works.

This application is made on behalf of the Assistant Director – Transport and Operations, East Sussex County Council and the relevant cost code for payment of fees due is C.5.04.200.2

We trust that our proposals meet with your approval.

Yours faithfully,

Richard Wall-Morris
Project Manager
