

## Railway cutting Bore Hole locations

23/04/14

BRC01

*Picture 1 BRC 01(St James Close)*

House on left hand side of picture would loose driveway access (red line) during boring of Piezo. Services possible at location, BT and Gas.

*Picture 2 BRC 01(St James Close)*

Area of verge in front of fence where borehole could be situated.

## BRC 02

*Picture 3 BRC 02 (Elderwood Close)*

Borehole could be situated in triangular area of grass. Parking space would be taken during installation however there would be no blocked/restricted access for home owners. No services shown on project service drawings, although the street lighting cable is still to be surveyed and plotted.

## BRC 05

*Picture 4 BRC 05 (Glovers Lane)*

Bore hole installation not seen to pose any issues in this location there is a no parking zone opposite the area to allow tractors to access Glovers bridge, but operation could be carried out without impeding this. Service drawings show LV Electric running through this area.
