Dear Sir,

Town and Country Planning Act 1990 Relating to land known as A259 Belle Hill, Bexhill on Sea to B2092 Queensway, St. Leonards on Sea, East Sussex RR/247/CC(EIA) – Condition 9: Temporary Construction Works.

We are writing to seek approval to use an alternative route through Glovers Lane for 2no. small vehicles on the following dates:

- Saturday 24th January;
- Saturday 31st January;
- Saturday 07th February;
- Saturday 14th February;
- Saturday 21st February; and
- Saturday 28th February.

The 2no. small vehicles, that are being used in order to carry out the works in the railway cutting, will enter the site each morning (07:00hrs) to gain access, and then leave the site at the end of the shift later the same day (18:00hrs).

The intention was to use the SeaChange access, but this brings a charge of £1,000 per day on Saturdays and the reason we are unable to use the Crowhurst entrance is due to the flooding and ground conditions through the site.

Also, due to flooding at Decoy Pond, the site has effectively been severed with no access along the haul road possible from Crowhurst Road to the southern end of the site. Therefore, we would also like to seek approval to use an alternative route through Adams Farm for small site vehicles, such as hilux trucks.

We would like this option to be available until the start of the earthworks season (01/04/2015).

A letter drop will be carried out to the residents along Glover Lane as per previous occasions that we have used this route for access.

This application is made on behalf of the Assistant Director – Transport and Operations, East Sussex County Council and the relevant cost code for payment of fees due is C.5.04.200.2

We trust that our proposals meet with your approval.

Yours faithfully,

Richard Wall-Morris
