

Project Title:	Bexhill to Hastings Link Road	
Planning No:	Condition 7 Protection of Animals	
Date Comments Received	05/03/2013	
Response Date	08/03/2013	
Subject	Comments and Responses Rev 3	
Development Control Comment (incl. doc reference if appropriate)	Applicants Response	
<p><u>Comments Received on 05/03/2013 (Ecology):</u></p> <p>Sheet 4 of 14 (B1297000-PH2/3000.01a/0054 R4) – remove label to K500 underpass. Position of underpass moved and wrong specification (MINOR CHANGE).</p>	<p>Drawing amended and resubmitted.</p>	
<p>Sheet 6 of 14 (B1297000-PH2/3000.01a/0056 R5) – no change has been made to the section along the eastern most part of the greenway where the hedge, ditch and fence are shown following different lines from those illustrated in the Addendum Design and Access Statement/ADAS (Fig 208/31/32E). If it is proposed that the plan for this section remains unchanged, justification is required as to why the plan deviates from the ADAS.</p>	<p>This proposal has been submitted as part of the amendment S24 and included in the NMA submissions.</p>	
<p>Sheet 9 of 14 (B1297000-PH2/3000.01a/0059 R3) – previous comments not addressed (submitted 26/02/13) re dormouse and bat boxes shown on amenity grassland and scrub & neutral grassland with scrub.</p>	<p>EMP now revised removing proposed bat/dormouse boxes in areas of amenity grass/scrub.</p>	

Comments Received on 05/03/2013 (Landscape):	
Sheet 2 of 14, the cross hatch indicated on the key as Noise bund is an error as these have been removed in the urban area and replaced by swales. This needs to be taken off the key.	Noise bund and hatch removed from drawing and drawing resubmitted.
The noise fences in the section Ch 300-500 have been relocated to be adjacent to the carriageway.	Drawing updated and resubmitted.
Sheet 7 of 14 The EA access to the south of the road at Ch. 3800 would appear to stop at the ditch, presumably a bridge would be needed in this location to allow access to the ponds?	The lagoon and maintenance access track has been repositioned to Ch.3345 to allow an outfall from the lagoon.
